---

Dear Ms. Leung, My name is Anne Madsen. We have been emailing before regarding the planned construction on Ticonderoga in San Mateo highlands. I'm a resident of the San Mateo Highlands where we are currently renting at 2227 Cobblehill pl- just behind the planned construction site. A neighbor showed us the San Mateo County's notification letter dated May 3 with subject "Consideration of a proposed Minor Modification to an approved Resource Management (RM) Permit (PLN2006-00357) for the development of Lots 5, 6, 7, and 8 (BLD2016-00161 through BLD2016-00164) in the San Mateo Highlands Area". Again - I would like to know why we did not receive that notification?

Because of the significant impact this construction project will have to the hillside open space along Ticonderoga Drive, which includes a possible increased risk of a landslide in the area, and the significant changes to the originally proposed earth grading activity, I request that the County prepare a supplemental environmental impact report document, and hold a public community hearing about the construction project.

As I have stated before, we are currently working from home due to the pandemic and our kids needs to be picked up at noon from the elementary school because aftercare is not offered by the school districts at the moment. Hence, we will be more exposed to any air and sound pollution and it will be a huge inconvenience to have to have kids stay inside and have to have doors and windows shut. We hope the city will considering this a "new situation " and as a minimum reconsider the timing of the construction. Thank you, Anne Madsen
