Hello Camille,

As of July 14, 2021, SWCA has conducted a total of 66 compliance inspections (approximately 4 or 5 of which were required solely due to compliance issues that required follow-up/additional inspections). Six additional site visits were also conducted for the pre-construction site inspections (typically we only do one per lot but because silt fence and other BMPs weren't installed properly, 4 additional follow-up inspections were required). Each weekly inspection costs approximately \$630, inclusive of travel time and reporting. Please let me know if you need any more info.

Thanks,
Kristen
